

Cumulative Index 1988

Volume 26

<i>January</i>	ULTRASONOGRAPHY OF THE MUSCULOSKELETAL SYSTEM, pages 1-180
<i>March</i>	RECENT ADVANCES IN PRACTICAL PEDIATRIC RADIOLOGY, pages 181-469
<i>May</i>	IMAGING STRATEGIES IN MRI, pages 471-699
<i>July</i>	IMAGING IN NEURORADIOLOGY, PART I, pages 701-891
<i>September</i>	IMAGING IN NEURORADIOLOGY, PART II, pages 893-1155
<i>November</i>	ARTHRITIS AND OTHER ARTHROPATHIES, pages 1157-1398

Note: Page numbers of issues and articles are in **boldface** type.

- Abdomen, examination of, in AIDS and HIV infection, in children, 346-348
 fetal anomalies of, prenatal diagnosis of, ultrasonography in, 294-298
 interventional radiology of, in children, 423, 425-428
 MRI of, for primary and metastatic malignancies, 691-693
 ultrafast CT of, in children, 285
 Abscesses, brain, MRI of, 839-842
 Gd-DTPA in, 876
 retropharyngeal, in infants and children, 312
 soft tissue, of extremities, ultrasonography of, 137
 spinal, ultrasonography of, 6, 10
 Absolute alcohol, in embolization, in children, 428
 Acardiac monsters, prenatal diagnosis of, ultrasonography in, 294
 Achilles tendons, pathology of, 81, 83
 ultrasonography of, 91, 94
 Acquired immunodeficiency syndrome. See AIDS.
 Acromegaly, clinical features of, 1282
 Acromioclavicular joint, in painful shoulder, 1370
 Adenomas, pituitary, MRI of, Gd-DTPA in, 880
 Adenopathy, peripheral, in HIV infection, in children, 344
 Adhesive capsulitis, in painful shoulder, 1367-1368
 Adrenal gland, MRI of, for primary and metastatic malignancies, 692
 Aerodigestive tract, and neck, MRI of, 547-571
 lateral compartment of neck, 566-568
 nasopharynx, 550-551, 557
 oropharynx, 557
 posterior compartment of neck, 568, 570
 scanning techniques, 548
 visceral compartment of neck, 557, 560-561, 566
 Agenesis, pulmonary, in infants and children, 324, 330
 renal, prenatal diagnosis of, ultrasonography in, 296
 sacral, MRI of, in children, 201-202
 Aicardi syndrome, MRI of, 766
 AIDS, and central nervous system infections, MRI of, 854-857
 HIV syndromes, 854
 nonviral infections, 856-857
 viral infections, 854-856
 and HIV infection, in children, 341-353
 abdomen in, 346-348
 chest in, 341-346
 head in, 348, 350-351
 Airway, upper. See Upper airway.
 Alzheimer's dementia, PET studies of, 1063, 1076-1077
 SPECT studies of, 1070
 Amenorrhea, MRI of brain for, 494, 496
 Amniocentesis, ultrasonography screening before, 287
 Amniotic band syndrome, prenatal diagnosis of, ultrasonography in, 301, 303
 Amniotic fluid, prenatal ultrasonography of, 303
 Amyloidosis, in painful shoulder, 1364
 vs. pigmented villonodular synovitis, 1341, 1343
 Anencephaly, prenatal diagnosis of, ultrasonography in, 288
 Aneurysms, and dissections, aortic, MRI and CT of, in children, 243, 246
 aortic, evaluation of, MRI in, 577-578, 598-599, 600-601
 intracranial, MRI of, 830-833
 Gd-DTPA in, 880
 surgical neuroangiography of, 1149-1150
 of popliteal artery, ultrasonography of, 78-79
 of vein of Galen, in infants, sonography of, 1099
 pulmonary artery, in children, 373, 375
 thoracic aorta, and brachiocephalic branches, in children, 375
 Angiodysplasia, pulmonary, in children, 365
 Angiofibromas, nasal, in infants and children, 310
 Angiography, of bone malignancies, 693
 of brain, 472
 of spine, 1133
 Angiomas, in Sturge-Weber syndrome, MRI of, 793
 of hands, ultrasonography of, 119
 venous, MRI of, 829-830

- Angiomatosis, cerebelloretinal, MRI of, 833
 encephalotrigeminal, MRI of, 833
 of choroid plexus, CT of, 795
 Angioplasty. See also *Embolization*.
 extravascular balloon, in children, 426-427
 Ankles, occupational arthritis of, 1351
 Ankylosing spondylitis, pulmonary complications of, 1279
 roentgenologic features of, 1197-1201
 vs. rheumatoid arthritis, of spine, 1224-1225
 Antibodies, in rheumatology, advances in, 1160-1161
 Aorta, acquired disorders of, MRI of, 598-601
 aneurysms of, evaluation of, MRI in, 577-578, 598-599, 600-601
 coarctation of, MRI of, 578
 MRI and CT of, in children, 242-243, 246
 thoracic, anomalies of, MRI of, 589-590
 Apoplexy, pituitary, MRI of, 819
 Arachnoid cysts, in infants, sonography of, 1099, 1101
 Arrhythmias, prenatal diagnosis of, ultrasonography in, 293-294
 Arteries, abnormal bronchial, in children, 367-368
 popliteal, aneurysms of, ultrasonography of, 78-79
 pulmonary, MRI and CT of, in children, 249-251
 spinal, anatomy of, and surgical neuroangiography, 1131, 1133
 vertebral, ultrasonography of, 1127-1128
 Arteriovenous fistulas, surgical neuroangiography of, 1144-1145
 Arteriovenous malformations, MRI of brain for, 473
 surgical neuroangiography of, 1134-1137, 1144, 1145-1149
 Arthralgias, in hemochromatosis, 1320
 Arthritides, roentgenologic features of, 1195-1212
 ankylosing spondylitis, 1197-1201
 multicentric reticulohistiocytosis, 1207-1208
 osteoarthritis, 1195-1197
 progressive systemic sclerosis, 1208-1211
 psoriatic arthritis, 1201-1207
 Reiter's disease, 1207
 Arthritis, extra-articular manifestations of, 1277-1293
 acromegaly, 1282
 fatty infiltration of liver after corticosteroid therapy, 1289
 Felty's syndrome, 1277-1278
 gastrointestinal manifestations in hemophilia, 1282-1283
 hemochromatosis, 1285
 lupus changes in central nervous system, 1287-1288
 lupus pleuritis and pericarditis, 1287
 mediastinal and extrapleural fat deposition after steroid therapy, 1288-1289
 pseudotumors in hemophilia, 1284-1285
 pulmonary complications after gold therapy, 1289, 1292
 pulmonary complications of ankylosing spondylitis, 1279
 retroperitoneal hematoma in hemophilia, 1283-1284
 rheumatoid nodules of lung, 1278-1279
 spinal changes after steroid therapy, 1288
 thoracic manifestations of scleroderma, 1280-1282
 upper gastrointestinal manifestations of scleroderma, 1279-1280
 glenohumeral joint, in painful shoulder, 1361-1365
 gouty, in adults. See *Gout*.
 in children, 1247-1265
 and congenital hip dislocation, 1247-1248
 and dysplasias, 1259
 and hematologic disorders, 1256, 1258-1259
 and Legg-Calvé-Perthes disease, 1249-1250
 and neoplasia, 1254-1256
 and slipped capital femoral epiphysis, 1250-1252
 and systemic disease, 1253-1254
 and trauma, 1252-1253
 rheumatoid, 1259, 1261-1264
 septic, 1248-1249
 in hemochromatosis, 1320
 infectious, in painful shoulder, 1363
 inflammatory, of knee, ultrasonography of, 70
 neurotrophic, in painful shoulder, 1364
 occupational and post-traumatic, 1349-1358
 articular cartilage, mechanical stress, and osteoarthritis, 1349
 corn pickers hand, 1351
 of ankle, 1351
 of elbow, 1351-1352
 of knee, 1352
 polyvinyl chloride and, 1351
 radiation-induced damage, 1355-1357
 repetitive hand tasks, 1349-1350
 stretch arthritis, 1350
 thermal and electrical injuries, 1352, 1354-1355
 vibratory arthropathy, 1350-1351
 of hands, ultrasonography of, 125
 of knee, ultrasonography of, 63-64
 psoriatic, roentgenologic features of, 1201-1207
 rheumatoid. See *Rheumatoid arthritis*.
 septic. See *Septic arthritis*.
 of hips, MRI of, in children, 235-236
 tuberculous, vs. pigmented villonodular synovitis, 1341
 Arthrocentesis, of septic arthritis, 1309
 Arthrography, of adhesive capsulitis, 1367
 of cruciate ligament injuries, 60-61
 of hips, in children, 47
 of meniscal injuries, 57
 of painful shoulder, 1360
 of pigmented villonodular synovitis, 1339-1341
 of popliteal cysts, 78
 of recurrent anterior dislocation, 1369
 of rotator cuff tears, 1365-1366
 of septic arthritis, 1309
 of transient anterior subluxation, 1368
 vs. MRI, of musculoskeletal system, 669
 vs. ultrasonography, to assess knee disorders, 73
 Arthropathies, hemophilic, vs. pigmented villonodular synovitis, 1343, 1346
 infectious, advances in, 1160
 of knee, ultrasonography of, 68, 70-72
 renal dialysis and, advances in, 1150
 Arthroscopy, of cruciate ligament injuries, 61
 of meniscal injuries, 57
 vs. ultrasonography, to assess knee disorders, 73
 Ascites, prenatal diagnosis of, ultrasonography in, 296
 Asthma, in infants and children, 334
 Astrocytomas, MRI of, 971, 973-974, 976
 subependymal and intraventricular giant cell, MRI of, 784, 787
 Ataxia, MRI of brain for, 487
 Atelectasis, obstructive, vs. central tumors, MRI of, 582
 Atlantoaxial subluxation, in juvenile rheumatoid arthritis, 1261, 1264
 in psoriatic arthritis, 1207
 Atresia, esophageal, prenatal diagnosis of, ultrasonography in, 294
 tracheomalacia secondary to, in infants and children, 318-319
 urethral, prenatal diagnosis of, ultrasonography in, 296-297
 Atrial septal defects, MRI of, 589
 Atrioventricular heart block, prenatal diagnosis of, ultrasonography in, 293-294
 Avascular necrosis, in painful shoulder, 1370

- Baker's cysts, clinical features of, 1275
of knee, ultrasonography of, 70-71
- Barium sulfate, in upper gastrointestinal series, in infants, 377
- Biceps brachii, tendon of long head of, ultrasonography of, 90
- Biopsy, of musculoskeletal system, interventional ultrasonography in, 147-148, 155
- Bladder, carcinoma of, MRI of, 635, 638, 694
extrophy of, prenatal diagnosis of, ultrasonography in, 298
- Blastomycosis, in septic arthritis, 1306
- Blood flow analysis, computerized, of neuropathic bone and joint disease, 1378
- Blowout fracture, of orbit, MRI of, 542, 544
- Bochdalek hernia, in children, 361-363
- Bone marrow, lesions of, MRI of, in children. *See Musculoskeletal system.*
- Bones, growth and development of, disturbances in, 441-463
chromosomal aberrations, 458
dysplasias, 457-458
endocrine disorders, 444-446
hematologic disorders, 454-455
infection, 446, 448
lack of normal stimulus, 458, 460
metabolic disorders, 442-444
trauma, 448, 450-452, 454
tumors, 455, 457
normal bone physiology, 441
MRI of, for primary and metastatic malignancies, 693-694
- Bony bars, spinal, ultrasonography of, 10, 12
- Brain, common congenital anomalies of, 735-772
disorders of neural tube closure, 755-758
disorders of organogenesis, 758-772
cerebellar and/or vermal hypoplasia, 768, 770
Chiari malformations, 770-772
disorders of neuronal migration, 758-761
dysgenesis of corpus callosum, 764, 766-767
holoprosencephaly, 761, 764
posterior fossa cysts, 767-768
septo-optic dysplasia, 764
cysts of, prenatal diagnosis of, ultrasonography in, 290-292
imaging of, available techniques for, 472
comparing modalities for, 472
historical perspective on, 471-472
selection of appropriate modality for, 472-473
MRI of, 471-503
for amenorrhea/galactorrhea, 494, 496
for ataxia/vertigo, 487
for congenital abnormalities, 496
for dementia, 499
for head trauma, 487
for headaches, 478, 482, 484
for hearing loss, 493
for progressive neurologic deficit, 487
for seizures, 473, 476, 478
for stroke, 484, 486-487
for suspected multiple sclerosis, 499, 502
for visual loss, 493-494
motion artifacts in. *See Motion artifacts.*
sonography of, in infants. *See Sonography.*
tumors of, nuclear medicine studies of, in children, 411-412
PET studies of, 1082-1083
prenatal diagnosis of, ultrasonography in, 291
- Breasts, cancer of, MRI of, 674, 677-678, 683-684
with Gd-DTPA, 684-685
NMR imaging of, 673-687
clinical context of, 673
measurement of relaxation times in, 674
NMR spectroscopy of, 685-686
- Bronchiolitis, in infants and children, 333-334
- Bursitis, and calcific tendonitis, in painful shoulder, 1360-1361
ultrasonography of, 97
- Calcium hydroxyapatite deposition disease, clinical features of, 1322-1323
- Calcium pyrophosphate deposition disease, 1315-1322
advances in, 1159
clinical features of, 1316-1317
differential diagnosis of goodes in, 1179-1180
diseases associated with, 1316
heredity in, 1315
in painful shoulder, 1362
incidence of, 1315
pathogenesis of, 1315-1316
roentgenologic features of, 1317, 1320, 1322
- Cancer, breast, NMR imaging of. *See Breasts.*
- Capsulitis, adhesive, in painful shoulder, 1367-1368
- Carcinoma, bladder, MRI of, 694
bronchogenic, staging of, MRI in, 573-574
cervical, MRI of, 644-645
endometrial, MRI of, 695
vs. leiomyomas, MRI of, 641-642, 644
hepatocellular, MRI of, 610
lung, MRI of, 691
prostatic, MRI of, 639-640, 694
renal cell, MRI of, 622-623, 626, 692
uterine, MRI of, 695
- Cardiac/paracardiac masses, MRI of, 597-598
- Cardiomyopathies, hypertrophic, MRI and CT of, in children, 252-255
MRI of, 595
- Cardiovascular disease, abnormal bronchial arteries and, in children, 368
- Cardiovascular system, MRI of, 589-606
acquired disorders of aorta, 598-601
acquired heart disease, 592-593, 595-598
congenital abnormalities of heart and great arteries, 589-590, 592-593
venous disease, 601-604
- Cartilage, articular, of knees, ultrasonography of, 63-64
- Catheterization, of musculoskeletal system, interventional ultrasonography in, 148
- Catheters, for embolization, in children, 428-429
- Cellulitis, of soft tissues, of extremities, ultrasonography of, 137
- Central nervous system, disorders of, PET studies of. *See PET.*
fetal anomalies of, prenatal diagnosis of, ultrasonography in, 288-292
in mixed connective tissue disease, 1237
infections and inflammatory diseases of, HIV infection, in children, 350-351
MRI of, 839-859
acute meningitis, 849-850
AIDS. *See AIDS.*
cerebral abscess, 839-842
encephalitis, 842-845
extra-axial empyemas, 850-852
granulomatous diseases, 845-848
fungal infection, 847-848
sarcoidosis, 848
tuberculosis, 847
parasitic lesions, 852-854
cysticercosis, 852-853
lupus changes in, 1287-1288

- Cephaloceles, MRI of, 755-758
- Cerebellar dysgenesis, in infants, sonography of, 1102
- Cerebellum, hemangioblastomas of, MRI of, 789-790
hypoplasia of, MRI of, 768, 770
- Cerebral infarctions, MRI of, Gd-DTPA in, 880, 885-886
sodium in, 870
- Cerebral metastases, MRI of, Gd-DTPA in, 876
- Cerebrovascular disease, ultrasonography of, 1111-1130
Doppler examination, 1111-1112, 1115-1120
diagnosis with, 1121-1127
real-time imaging, 1120-1121
technical considerations in, 1112-1115
vertebral arteries, 1127-1128
- Cervical spine, MRI of, 921-947
anatomy in, pathologic conditions distorting, 939-941
artifacts distorting, 930-931, 936
magnetic susceptibility artifacts, 931, 936
motion artifacts, 936
truncation artifacts, 931
normal anatomy in, 925-930
cervical neural foramina, 928-930
cervical spinal cord, 925, 927-928
intervertebral disk, 925
vertebrae, 925
techniques for, 921-925
cardiac gating, 923
Gd-DTPA, 924-925
gradient-recalled echo sequence, 923
motion suppression techniques, 923-924
spin-echo pulse sequence, 921, 923
- Cervix, carcinoma of, MRI of, 644-645, 695
- Chemical injuries, clinical features of, in children, 452
- Chemosis, acute erythematous, MRI of orbit for, 538
- Chemotherapy, for rheumatoid arthritis, 1161
- Chest, examination of, in AIDS and HIV infection, in children, 341-346
MRI of, 573-588
chest wall, 582-583
for primary and metastatic malignancies, 690-691
in children, 263-275
pulse sequences in, 263-264
surface coils in, 264-274
lung, 581-582
mediastinum, 573-575, 577-579
congenital anomalies of great vessels, 578
evaluation of aortic aneurysm and dissection, 577-578
evaluation of mediastinal masses, 574-575
staging of bronchogenic carcinoma, 573-574
superior vena caval syndrome, 579
pleura, 582
pulmonary hilum, 579-581
arteries and veins, 580-581
endobronchial lesions, 581
technique for, 573
thoraco-abdominal processes, 583, 585
- Chiari malformations, MRI of, 770-772
- Chiari type II malformations, in infants, sonography of, 1102
- Child abuse, clinical features of, 451
diagnosis of, 1253
- Choanal atresia, in infants and children, 309-310
- Chondroblastomas, in children, 1254-1255
- Chondrocalcinosis, and other calcifications, 1315-1325
calcium hydroxyapatite deposition disease, 1322-1323
calcium pyrophosphate deposition disease. See *Calcium pyrophosphate deposition disease*.
in painful shoulder, 1364-1365
- Chondromatosis, synovial, vs. pigmented villonodular synovitis, 1343
- Chorionic villus sampling, ultrasonography screening before, 287
- Choroid plexus, angiomas of, CT of, 795
- Chronic lung disease, abnormal bronchial arteries and, in children, 368
- CINE-MR, of previously injured spinal cord, 1033
- Cineangiography, of pulmonary arteries, in children, 249-250
- Cleft lip, prenatal diagnosis of, ultrasonography in, 293
- Cleft palate, prenatal diagnosis of, ultrasonography in, 293
- Coarctation of aorta, MRI and CT of, in children, 242-243
- Color flow sonography, cerebrovascular, 1112, 1115
- Computed tomography, of acute meningitis, 849-850
of acutely injured spinal cord, 1026
of anoxic encephalopathy, in infants, 1106
of arteriovenous malformations, 821-822
of astrocytomas, 973, 974
of cerebral abscesses, 840-842
of congenital heart disease. See *Congenital heart disease*.
of cysticercosis, 852-853
of encephalitis, 842-843
of ependymomas, 970
of extra-axial empyemas, 850-852
of extradural metastatic disease, 999
of fatty infiltration of liver, after corticosteroid therapy, 1289
of granulomatous diseases, 845-848
of hemangioblastomas, 976
of hemochromatosis, 1285
of hips, in children, 47
of HIV syndromes, 854
of intracranial hemorrhage, in infants, 1104-1105
of lupus changes, in central nervous system, 1287
of meningiomas, 990
of neurinomas-neurofibromas, 978, 981, 983
of neuroblastomas, 1005
of painful shoulder, 1360
of plasmacytomas and multiple myeloma, 1003
of pseudotumors, in hemophilia, 1285
of septic arthritis, 1309
of toxoplasma infections, in AIDS, 856
of tuberous sclerosis, 783, 787
of urinary tract infections, in children, 401
single photon emission, 412-414
ultrafast, in infants and children, 277-286
abdomen, 285
airway, 282-283
cardiac and vascular imaging, 281-282
cranium, 283, 285
high-resolution imaging, 285-286
techniques for, 277-281
vs. interventional ultrasonography, of musculoskeletal system, 145
vs. MRI, of aerodigestive tract and neck. See *Aerodigestive tract*.
of brain. See *Brain*.
of chest. See *Chest*.
of musculoskeletal system, 669-670
of orbit. See *Orbit*.
of pelvis. See *Pelvis*.
of spine. See *Spine*.
- Congenital abnormalities, of brain, MRI of, 496
of great vessels, MRI of, 578
of heart and great arteries, MRI of, 589-590, 592-593
of spine, MRI of, 524-525
renal, MRI of, 618
- Congenital heart disease, MRI and CT of, 241-262, 590, 592-593
cardiac structure and function in, 251-257

- cardiac chamber masses, 256-257
- complex congenital heart disease, 252
- hypertrophic cardiomyopathy, 252-255
- septal defects, 251-252
- ventricular function, 255-256
- imaging of great arteries, 242-249
 - aortic aneurysms and dissections, 243, 246
 - coarctation of aorta, 242-243
 - vascular ring, 246, 249
- imaging of pulmonary arteries, 249-251
- pericardial disease in, 257
- techniques for, 241-242
- venous anomalies in, 258-259
- Conjoined twinning, prenatal diagnosis of, ultrasonography in, 300-301
- Contrast agents, in MRI, 1047-1058
 - applications of, 1050-1052
 - dosing of, 1050
 - future role of, 1056-1057
 - Gd-DTPA, . See *Gd-DTPA*.
 - immunoglobulins, 1054-1055
 - ionic materials, 1050
 - lipophilic materials, 1052-1054
 - macromolecular agents, 1054
 - metal ions, 1049
 - organic materials, 1048-1049
 - paramagnetics, 1048
 - superparamagnetic materials, 1055-1056
- Corpus callosum, dysgenesis of, MRI of, 764, 766-767
- Corticosteroids, fatty infiltration of liver after, 1289
- Coxa vara, ultrasonography of, in children, 49, 51
- Cranium, ultrafast CT of, in children, 283, 285
- CREST syndrome, in progressive systemic sclerosis, 1208-1209
- Croup, in infants and children, 315-316
- Cryptococcus infections, in AIDS, MRI of, 856
- Crystal deposition diseases, advances in, 1159
- Currarino triad, in sacral agenesis, in children, 202
- Cyclosporine A, for rheumatoid arthritis, 1162
- Cystic fibrosis, in infants and children, 334
- Cysticercosis, MRI of, 852-853
- Cystourethrography, voiding, in urinary tract infections, in children, 393-394
- Cysts, arachnoid, in infants, sonography of, 1099, 1101
 - Baker's, clinical features of, 1275
 - of knee, ultrasonography of, 70-71
 - hepatic, MRI of, 611-612
 - of brain, prenatal diagnosis of, ultrasonography in, 290-292
 - of gastrointestinal tract, prenatal diagnosis of, ultrasonography in, 295-296
 - of hands, ultrasonography of, 117
 - of knee, 70-71, 77-78
 - of posterior fossa, MRI of, 767-768
 - of spinal cord, vs. myelomalacia, MRI of, 1035-1036
 - of spine, ultrasonography of, 6, 10
 - ovarian, MRI of, 646
 - renal, MRI of, 618-620
 - subchondral. See *Geodes*.
 - synovial, ultrasonography of, 102
- Cytomegalovirus, vs. toxoplasmosis, in infants, sonography of, 1103-1104
- Dactylitis, clinical features of, in children, 455
- Dandy-Walker cysts, MRI of, 768
 - prenatal diagnosis of, ultrasonography in, 290
- Dandy-Walker malformations, in infants, sonography of, 1101-1102
- Degenerative joint disease, vs. pigmented villonodular synovitis, 1341
- Dementia, MRI of brain for, 499
 - PET studies of, 1063, 1076-1077
 - SPECT studies of, 1070
- Depression, PET studies of, 1065-1066
- Dermatomyositis, in children, 1264
- Dermoid cysts, of orbit, MRI of, 542
- Dialysis, renal, and arthropathy, advances in, 1159
- Diaphragm, evaluation of, in children, 355-364
 - acquired abnormalities, 360-361
 - congenital abnormalities, 361-363
 - normal and abnormal function, 356-360
 - normal and pathologic appearance, 355-356
- Diastematomyelia, MRI of, in children, 198, 200-201
 - MRI of spine for, 525
- Disk space, infection of, MRI of, in children, 207-209
 - materials and methods in, 207
- Diskitis, MRI of spine for, 525, 529
- Disks, spinal, ultrasonography of, 10, 12
- Doppler ultrasonography, cerebrovascular, 1111-1112, 1115-1120
 - diagnosis with, 1121-1127
- Double aortic arch, in infants and children, 319, 321
- Drug abusers, septic arthritis in, 1307
- Duplex sonography, cerebrovascular, 1111-1112, 1113, 1115
- Dysgenesis, cerebellar, in infants, sonography of, 1102
- cloacal, prenatal diagnosis of, ultrasonography in, 298
- Dysplasias, in children, 1259
 - of bone, 457-458
 - septo-optic, MRI of, 764
 - skeletal, prenatal diagnosis of, ultrasonography in, 301-302
- Dysprosium triethylenetetramine hexaacetate, in MRI, 867
- Dysprosium tripolyphosphate, in MRI, 865, 867
- Dysraphism, MRI of spine for, 524-525
 - spinal. See *Spinal dysraphism*.
- Dystrophy, asphyxiating thoracic, in children, 457
 - reflex sympathetic, in painful shoulder, 1370
- Ectopia cordis, prenatal diagnosis of, ultrasonography in, 294
- Effusion, of knee, ultrasonography of, 70
- Elbows, occupational arthritis of, 1351-1352
- Electrical injuries, and arthritis, 1352, 1354-1355
- Electrophysiologic monitoring, of spine and spinal cord, 1133
- Ellis-van Creveld syndrome, clinical features of, in children, 457
- Emboli, pulmonary, MRI of, 580-581
- Embolization. See also *Angioplasty*.
 - endovascular, for arteriovenous fistulas, 1145
 - for brain arteriovenous malformations, 1145-1149
 - for dural arteriovenous malformations, 1144
 - for spinal arteriovenous malformations, 1133-1134, 1136
 - for spinal neoplasms, 1137, 1139
- in children, 428-437
 - agents used in, 428
 - cardiovascular uses of, 435
 - catheters used in, 428-429
 - complications of, 435
 - equipment for, 432
 - fibrinolysis therapy in, 435-436
 - for hemorrhage, 431-432
 - for medical renal ablation, 432

Embolization (*Continued*)

- in children, for renovascular disease, 434
 - for vascular malformations, 429-431
 - for vascular shunts, 434-435
 - imaging before, 429
 - indications for, 429
 - technique for, 434
- Emphysema, lobar, in infants and children, 331-332, 333
- Empyemas, extra-axial, MRI of, 850-852
- Encephalitides, MRI of, 842-845
- Encephalitis, cytomegalovirus, MRI of, 855
- Encephalocele, prenatal diagnosis of, ultrasonography in, 289
- Encephalomyelitis, acute disseminated, MRI of, 844-845
- Encephalopathy, anoxic, in infants, sonography of, 1105-1107, 1109
- Enchondromatosis, in children, 1255
 - clinical features of, 457
- Endometriomas, MRI of, 646
- Endometrium, carcinoma of, MRI of, 695
- Eosinophilic granuloma, in children, 1255-1256
- Ependymitis, MRI of, 855-856
- Ependymomas, MRI of, 966, 970-971
- Epiglottitis, retropharyngeal, in infants and children, 313, 315
- Epilepsy, PET studies of, 1063-1064, 1080-1081
 - sodium MRI of, 870
 - SPECT studies of, 1069
- Epiphyses, slipped capital femoral, in children, 1250-1252
- Ewing's sarcoma, clinical features of, in children, 455, 457
 - MRI of, 221
- Exencephaly, prenatal diagnosis of, ultrasonography in, 288-289
- Exstrophy, of bladder, prenatal diagnosis of, ultrasonography in, 298
- Extracorporeal membrane oxygenation, in infants, sonography of, 1106-1107, 1109
- Extremities, lower, interventional ultrasonography of, 149, 153
 - soft tissue abnormalities of, ultrasonography of, 131-144, 79-80
 - hematoma/muscular injury, 132-136
 - inflammatory processes, 136-139
 - neoplasms, 140-143
 - upper, interventional ultrasonography of, 153
- Face, fetal anomalies of, prenatal ultrasonography of, 292-293
- Feet, disorders of, ultrasonography of, 84
- Felty's syndrome, clinical features of, 1277-1278
- Fibrinolytic therapy, in embolization, in children, 435-437
- Fibromatosis, soft tissue, MRI of, in children, 219
- Fibrosis, of hands, ultrasonography of, 125
 - vs. active inflammation, MRI of, 582
- Fingers, tendons of, ultrasonography of, 91, 112
- Fistulas, arteriovenous, surgical neuroangiography of, 1144-1145
 - tracheoesophageal, tracheomalacia secondary to, in infants and children, 318-319
- Fluid aspiration, of musculoskeletal system, interventional ultrasonography in, 148
- Fluoroscopy, vs. interventional ultrasonography, of musculoskeletal system, 145
- Foreign bodies, aspiration of, in children, 334-335, 359
 - in feet, ultrasonography of, 84
 - in hands, ultrasonography of, 126, 128
- Fractures, blowout, of orbit, MRI of, 542, 544
- Frostbite, and arthritis, 1354
 - clinical features of, in children, 452
- Fungal infections, MRI of, 847-848
- Gadolinium-DTPA. See *Gd-DTPA*.
- Galactorrhea, MRI of brain for, 494, 496
- Gallium scanning, of disk space infections, in children, 208
 - of neuropathic bone and joint disease, 1378
 - of septic arthritis, 1312
- Gallstones, prenatal diagnosis of, ultrasonography in, 295-296
- Gastrointestinal tract, fetal anomalies of, prenatal diagnosis of, ultrasonography in, 294-296
 - infections of, in HIV infection, in children, 346
 - interventional radiology of, in children, 423, 425-428
- Gastroschisis, prenatal diagnosis of, ultrasonography in, 295
- Gastrostomy, percutaneous, in children, 427-428
- Gd-DTPA, in MRI, 1049-1050
 - of breast, 684-685
 - of cervical spine, 924-925
 - of intracranial lesions, 873-887
 - clinical enhancement features, 874-886
 - abscesses, 876
 - acoustic neuromas, 880
 - aneurysms and vascular malformations, 880
 - gliomas, 876
 - hemangioblastomas, 876
 - infarction, 880, 885-886
 - meningiomas, 880
 - metastases, 876
 - normal structures, 874-875
 - sellar and suprasellar masses, 880
 - tumor recurrence, 880
 - white matter disease, 886
 - properties of Gd-DTPA, 873-874
 - of spinal disease, 1009-1024
 - enhancement of normal structures, 1009-1011
 - extradural disease, 1011-1015
 - neoplastic, 1011-1015
 - non-neoplastic, 1015
 - future applications of, 1023
 - intradural extramedullary disease, 1016-1019
 - neoplastic, 1016-1019
 - non-neoplastic, 1019
 - intramedullary disease, 1019-1023
 - neoplastic, 1019, 1021
 - non-neoplastic, 1021, 1023
- Gelfoam, in embolization, in children, 428
- Genital tract, fetal anomalies of, prenatal diagnosis of, in children, 298
- Genitourinary tract, interventional radiology of, in children, 421-423
 - nuclear medicine studies of, 409-410
- Geodes, differential diagnosis of, 1165-1184
 - in calcium pyrophosphate deposition disease, 1179-1180
 - in gout, 1179
 - in hemophilia, 1176-1179
 - in osteoarthritis, 1165-1171
 - in rheumatoid arthritis, 1171, 1173-1176
 - in tumors and tumor-like conditions, 1180-1183
 - in pigmented villonodular synovitis, 1331
- Gibbs' artifacts, in MRI of brain and spine, 908-911, 931
- Glenohumeral joint, in painful shoulder, 1361-1366

- Gliomas, MRI of, 774, 776, 778-779
 Cd-DTPA in, 876
 spinal cord, MRI of, 1019
 Glomus tumors, of neck, MRI of, 566-567
 Gold salts, for arthritis, pulmonary complications of, 1289, 1292
 for rheumatoid arthritis, 1161
 Gout, advances in, 1159
 differential diagnosis of geodes in, 1179
 in adults, 1267-1276
 clinical features of, 1269-1270
 complications of, 1274-1275
 differential diagnosis of, 1275
 distribution of abnormalities in, 1272, 1274
 epidemiology of, 1267-1268
 etiology of, 1268
 laboratory features of, 1268
 pathophysiology of, 1268-1269
 roentgenologic features of, 1270-1272
 in painful shoulder, 1363-1364
 Granulomatous diseases, MRI of, 845-848
 Graves' ophthalmopathy, MRI of orbit for, 536, 538
 Great vessels, congenital anomalies of, MRI of, 578
- Half Fourier imaging, in MRI, 714
 Halo traction, for acutely injured spinal cord, 1026
 Hands, rheumatoid arthritis of. *See Rheumatoid arthritis.*
 ultrasonography of, normal anatomy in, 109-114
 dorsal aspects, 112
 fingers, 112
 palm, 110-111
 wrist, 109-110
 pathology in, 114, 117, 119, 121-123, 125-126, 128
 technique for, 109
 Head, examination of, in AIDS and HIV infection, in
 children, 348, 350-351
 fetal anomalies of, prenatal diagnosis of, ultrasonog-
 raphy in, 288-292
 trauma to, MRI of brain for, 487
 PET studies of, 1081-1082
 Headaches, MRI of brain for, 476, 482, 484
 Hearing, loss of, MRI of brain for, 493
 Heart, congenital abnormalities of, MRI of, 589-590, 592-
 593
 nuclear medicine studies of, in children, 410
 ultrafast CT of, in children, 281-282
 Heart disease, MRI of, 590, 592-593, 595-598
 Hemangioblastomas, MRI of, 788-791, 976-977
 cerebellar, 789-790
 Cd-DTPA in, 876
 medullary, 790
 retinal, 788-789
 of spine, surgical neuroangiography of, 1137
 Hemangiomas, MRI of, cavernous, 826, 828
 hepatic, 609
 orbital, 538
 subglottic, in infants and children, 316
 synovial, in children, 1258-1259
 vs. pigmented villonodular synovitis, 1341
 Hemangiomatosis, pulmonary, in children, 373
 Hematomas, dissecting, MRI of, 600
 hepatic, MRI of, 610-611
 of extremities, ultrasonography of, 79, 132-136
 post-traumatic, of hands, ultrasonography of, 126
 retroperitoneal, in hemophilia, 1283-1284
 soft tissue, MRI of, in children, 218
 spinal, ultrasonography of, 6, 10, 17
 subdural and epidural, MRI of, 817
- Hemochromatosis, arthralgias in, 1320
 arthritis in, 1320
 clinical features of, 1285
 Hemoglobinopathy, sickle cell, in children, 454-455
 Hemophilia, arthropathies in, vs. pigmented villonodular
 synovitis, 1343, 1346
 differential diagnosis of geodes in, 1176-1179
 gastrointestinal manifestations of, 1282-1283
 in children, 1256, 1258
 in painful shoulder, 1364
 pseudotumors in, 1284-1285
 retroperitoneal hematoma in, 1283-1284
 Hemorrhage, embolization for, in children, 431-432
 germinal matrix related, in infants, sonography of, 1090,
 1092-1093
 intracranial. *See Intracranial hemorrhage.*
 pulmonary, MRI of, 582
 Heparin, for thrombolysis, in children, 436
 Hepatitis B virus, in septic arthritis, 1306
 Hepatosplenomegaly, in HIV infection, in children, 346
 Hernias, diaphragmatic, in children, 325, 330, 361-363
 prenatal diagnosis of, ultrasonography of, 294
 Herpesviruses, MRI of, 842-843
 Heterotopia, MRI of, 759-760
 Hilgenreiner's line, in radiography of hip, in children, 31,
 32
 Hilum, pulmonary, MRI of. *See Chest.*
 Hips, congenital disorders of, septic arthritis, 1307-1308
 interventional ultrasonography of, 149, 153
 pediatric disorders of, arthrography of, congenital dislo-
 cation, 47
 congenital dislocation, 1247-1248
 CT of, congenital dislocation, 47
 MRI of, 232, 235-236
 congenital dislocation, 49
 ultrasonography of, 29-53
 congenital dislocation, 30-49
 anatomy in, 34, 36
 case studies of, 44, 47
 indications for, 41
 radiography of, 30-33
 results of, 41, 43-44, 47
 technique for, 36-38, 40-41
 coxa vara, 49, 51
 embryology, anatomy, and development in, 29-30
 septic hip, 51
 transient synovitis, 51
 Histiocytomas, of hands, ultrasonography of, 119
 HIV, syndromes caused by, MRI of, 854
 Holoprosencephaly, in infants, sonography of, 1098
 MRI of, 761, 764
 prenatal diagnosis of, ultrasonography in, 290-291
 Human immunodeficiency virus, syndromes caused by,
 MRI of, 854
 Hydatid disease, MRI of, 854
 Hydranencephaly, in infants, sonography of, 1098-1099
 prenatal diagnosis of, ultrasonography in, 291
 Hydrocephalus, in infants, sonography of, 1097
 post-hemorrhagic, in infants, sonography of, 1092
 prenatal diagnosis of, ultrasonography in, 289-290
 Hydronephrosis, prenatal diagnosis of, ultrasonography in,
 296
 Hydrops fetalis, prenatal diagnosis of, ultrasonography in,
 301
 Hygroma, cystic, prenatal diagnosis of, ultrasonography
 in, 300
 Hyperostosis, disseminated idiopathic sclerosing, of spine,
 1219
 Hypertelorism, clinical features of, in children, 446
 Hypertension, focal nodular, MRI of, 609-610

- Hypertelorism, prenatal diagnosis of, ultrasonography in, 293
- Hypertension, pulmonary, MRI of, 581
- pulmonary arterial, in scleroderma, 1281
- Hypertrophic cardiomyopathy, MRI and CT of, in children, 252-255
- Hypervitaminosis A, clinical features of, in children, 452
- Hypoparathyroidism, clinical features of, in children, 445-446
- Hypopharynx, MRI of, for primary and metastatic malignancies, 690
- Hypophosphatasia, clinical features of, in children, 444
- Hypopituitarism, clinical features of, in children, 444-445
- Hypoplasia, cerebellar and/or vermillion, MRI of, 768, 770
- pulmonary, in infants and children, 324, 330
- Hypotelorism, prenatal diagnosis of, ultrasonography in, 292-293
- Hypothyroidism, clinical features of, in children, 445
- Immunogenetics, in spondyloarthropathies, advances in, 1157-1158
- Immunoglobulins, as contrast agents, in MRI, 1054-1055
- Impingement syndrome, in painful shoulder, 1368
- Indium scanning, of neuropathic bone and joint disease, 1378
- of septic arthritis, 1312
- Infarctions, cerebral, MRI of, Gd-DTPA in, 880, 885-886
- sodium in, 870
- Infections, intracranial, in infants, sonography of, 1102-1104
- of bones, in children, 446, 448
- of central nervous system, in HIV infection, in children, 350-351
- of disk space, MRI of, 207-209
- materials and methods in, 207
- of gastrointestinal tract, in HIV infection, in children, 346
- of urinary tract. *See Urinary tract, infections of.*
- Inflammation, of soft tissues, of extremities, ultrasonography of, 136-139
- Infencephaly, prenatal diagnosis of, ultrasonography in, 289
- Innominate artery compression syndrome, tracheomalacia secondary to, in infants and children, 318
- Interphalangeal joints, bony ankylosis of, in psoriatic arthritis, 1203-1204
- Interventional radiology, in children, 419-440
- anesthesia for, 419-420
- embolization. *See Embolization.*

 due to calcific tendonitis and bursitis, 1360-1361
 due to glenohumeral joint arthritis, 1361-1365
 due to impingement syndrome, 1368
 due to nonarthritic abnormalities of glenohumeral joint, 1365-1366
 due to recurrent anterior dislocation, 1369-1370
 due to transient anterior subluxation, 1368-1369
 roentgenologic examination of, 1359-1360
- Shunts, systemic pulmonary, MRI and CT of, in children, 251
 vascular, embolization for, 434-435
- Sickle cell hemoglobinopathy, in children, 454-455
- Single photon emission computed tomography. See SPECT.
- Skeletal dysplasias, prenatal diagnosis of, ultrasonography in, 301-302
- Smallpox, septic arthritis in, 1306-1307
- Sodium, in MRI. See *Magnetic resonance imaging*.
- Sodium tetracyclate, in embolization, in children, 428
- Soft tissues, fetal anomalies of, prenatal diagnosis of, ultrasonography in, 300-301
 tumors of, ultrasound in, 293, 300
- Sonography, infant cranial, 1089-1110
 pathology not due to gestational age, 1096-1109
 anoxic encephalopathy, 1105-1107, 1109
 congenital, 1096-1099, 1101-1102
 anechoic infratentorial, 1101-1102
 anechoic supratentorial, 1097-1099
 echogenic infratentorial, 1102
 echogenic supratentorial, 1099, 1101
 intracranial hemorrhage, 1104-1105
 intracranial infections, 1102-1104
 neoplasms, 1105
 premature brain in, 1089-1096
 germinal matrix related hemorrhage, 1090, 1092-1093
 periventricular leukomalacia, 1093-1096
 intraoperative, of acutely injured spinal cord, 1032
 of previously injured spinal cord, 1036, 1038
- SPECT, vs. PET, 1059-1074
 areas of use for PET, 1061-1067
 dementia, 1063
 depression, 1065
 effects of psychophysiologic stimuli on local glucose metabolic rate, 1061
 epilepsy, 1063-1064
 ischemia and stroke, 1061-1062
 movement disorders, 1064-1065
 neurotransmitter and receptor imaging, 1066-1067
 normal physiology and aging, 1061
 schizophrenia, 1066
 tumor metabolism, 1065
 areas of use for SPECT, 1067-1072
 Alzheimer's dementia, 1070
 epilepsy, 1069
 ischemia and stroke, 1067-1069
 movement disorders, 1069-1070
 psychiatric disorders and stimulation studies, 1070, 1072
 tumor metabolism, 1073
 PET as bridge to SPECT, 1059-1061
- Spectroscopy, NMR, of breast, 685-686
- Spinal cord. See also *Spine*.
 cysts of, vs. myelomalacia, MRI of, 1035-1036
 injured, MRI of, 1025-1045
 acutely injured, 1025-1032
 previously injured, 1032-1044
 surgical neuroangiography of, . See *Spine*.
 tethering of, MRI of, in children, 185, 190, 198
- Spinal dysraphism, MRI of, in children, 181-205
 diastematomyelia, 198, 200-201
 lipomeningomyelocele, 182-185
 meningocele, 191
 meningomyelocele, 185-191
 sacral agenesis, 201-202
 spinal lipoma, 193
 syringomyelia, 191, 193
 technique for, 181-182
 tethered cord, 198
 sonography of, in infants, 1097-1098
- Spine. See also *Spinal cord*.
 and spinal cord, surgical neuroangiography of, 1131-1141
 electrophysiological monitoring in, 1133
 embolization in, 1133-1134
 intramedullary neoplasms, 1137
 spinal angiography in, 1133
 spinal column neoplasms, 1137, 1139
 spinal cord arteriovenous malformations, 1134-1136
 spinal dural arteriovenous malformations, 1136-1137
 vascular anatomy in, 1131-1133
- bony overgrowths and calcifications of, 1213-1234
 cervical spine degeneration, 1219
 DISH, 1219
 factors influencing formation, 1217-1219
 mechanism of production, 1214, 1217
 ossification of posterior longitudinal ligament, 1228-1232
 etiology of, 1230
 pathophysiology of, 1230
 roentgenologic features of, 1230-1231
 symptoms of, 1228, 1230
 treatment of, 1231-1232

Spine (*Continued*)

- bony overgrowths and calcifications of, significance of, 1219, 1221
 - spondylosis deformans, 1213-1214
 - syndesmophytes, "mimickers," and excrescences, 1221, 1224-1228
- cervical, degeneration of, 1219
 - MRI of. *See Cervical spine.*
- changes in, after steroid therapy, 1288
- fetal anomalies of, prenatal diagnosis of, ultrasonography in, 292
- imaging of, available techniques for, 507-508
 - selection of appropriate modality for, 508
- MRI of, 505-533
 - for congenital abnormalities, 524-525
 - for diskitis/osteomyelitis, 525, 529
 - for myelopathy, 508-509, 514-515
 - for myeloradiculopathy, 515
 - for pain, 529
 - for radiculopathy, 515-516, 522
 - for trauma, 522, 524
 - future prospects for, 529
 - motion artifacts in. *See Motion artifacts.*
 - technical considerations in, 505-507
- psoriatic involvement of, 1206
 - ultrasonography of, 1-27
 - abnormalities detectable by, 5-17
 - cysts, abscesses, and hematomas, 6, 10
 - disks and bony bars, 10, 12
 - trauma, 12, 17
 - tumors, 5-6
 - in children, 17, 19-26
 - normal anatomy in, 2-5
 - technique for, 2
- Spleen, nuclear medicine studies of, in children, 410-411
- Split notochord syndrome, MRI of, in children, 202
- Spondylitis, ankylosing, pulmonary complications of, 1279
 - roentgenologic features of, 1197-1201
 - vs. rheumatoid arthritis, of spine, 1224-1225
- Spondyloarthropathies, and immunogenetics, advances in, 1157-1158
 - retinoic acid and, in severe acne, 1227
- Spondylosis, and distortion of cervical spine, 941
- Spondylosis deformans, of spine, 1213-1214
- Stenosis, spinal, MRI of, 960, 963
- Steroids, mediastinal and extrapleural fat deposition after, 1288-1289
 - spinal changes after, 1288
- Streptokinase, for thrombolysis, in children, 436
- Stress fractures, of knee, ultrasonography of, 73
- Stroke, ischemia and, PET studies of, 1061-1062
 - SPECT studies of, 1067-1069
 - MRI of brain for, 484, 486-487
 - PET studies of, 1083-1084
- Sturge-Weber syndrome, central nervous system manifestations of, MRI of, 791, 793-795, 833
- Subluxation, atlantoaxial, in juvenile rheumatoid arthritis, 1261, 1264
 - in psoriatic arthritis, 1207
- transient anterior, in painful shoulder, 1368-1369
- Superior vena cava syndrome, MRI of, 579, 601-602
- Swyer-James-McLeod syndrome, in infants and children, 333-334
- Syndesmophytes, of spine, 1221, 1224-1228
- Synoviomias, vs. pigmented villonodular synovitis, 1341
- Synovitis, pigmented villonodular. *See Pigmented villonodular synovitis.*
- rheumatoid, of hands, ultrasonography of, 125
- transient, of hips, in children, 51

Syringomyelia, MRI of, in children, 191, 193

MRI of spine for, 508

Systemic lupus erythematosus, and changes in central nervous system, 1287-1288

and pericarditis, clinical features of, 1287

vs. mixed connective tissue disease, 1245

Technetium-99m methylene diphosphonate, in imaging of neuropathic bone and joint disease, 1377

Technetium-99m scans, of disk space infections, in children, 208

of septic arthritis, 1309

of urinary tract infections, in children, 401

Telangiectasia, capillary, MRI of, 828

hereditary hemorrhagic, in children, 366-367

pulmonary, in children, 366

Tendonitis, calcific, and bursitis, in painful shoulder, 1360-1361

patellar, ultrasonography of, 57-58

ultrasonography of, 97

Tendons, Achilles, pathology of, 81, 83

ultrasonography of, 91, 94

inflammatory changes of, 97, 102-103, 107

patellar, pathology of, 81, 83

ultrasonography of, 64-67, 91

trauma to, 94, 96-97

ultrasonography of, 87-107

anatomy in, 87, 89-94

frequency of transducer in, 88

longitudinal and transverse scans in, 88

types of equipment for, 87, 88

use of water-path system in, 88

Tenosynovitis, of hands, ultrasonography of, 123, 125

ultrasonography of, 97, 102

Thermal injuries, and arthritis, 1352, 1354-1355

clinical features of, in children, 452

Thighs, interventional ultrasonography of, 149

Thoraco-abdominal processes, MRI of, 583, 585

Thorax, fetal anomalies of, prenatal diagnosis of, ultrasonography in, 293-294

MRI of, in children, 264, 266

Thrombosis, deep-vein, MRI of, 602-604

Thymus, evaluation of, MRI of, 575

Thyroid gland, MRI of, for normal and pathologic entities, 560-561, 566

for primary and metastatic malignancies, 690

Tomography, computed. *See Computed tomography.*

of septic arthritis, 1309

positron emission, in children, 414-416

Tonsils, hypertrophied, in infants and children, 312

Toxocara infections, MRI of, 853-854

Toxoplasma infections, in AIDS, MRI of, 856

Toxoplasmosis, vs. cytomegalovirus, in infants, sonography of, 1103-1104

Trachea, and bronchi, MRI of, in children, 266

Tracheomalacia, in infants and children, 316, 318-319

Transplantation, renal, MRI of, 627

Trauma, to bones, in children, 448, 450-452, 454

to hands, ultrasonography of, 125-126, 128

to head, MRI of brain for, 487

PET studies of, 1081-1082

to kidneys, MRI of, 622

to skeleton, in children, 1252-1253

to spine, and bony overgrowths and calcifications, 1227-1228

MRI of, 522, 524

- ultrasonography of, 12, 17
- to tendons, ultrasonography of, 94, 96-97
- Triceps brachii, lower tendon of, ultrasonography of, 90
- Trunk, soft tissue masses of, interventional ultrasonography of, 154
- Tuberculosis, MRI of, 847
- Tuberous sclerosis, central nervous system manifestations of, MRI of, 782-787
- Tumors, and tumor-like conditions, differential diagnosis of
 - geodes in, 1190-1183
 - endobronchial, in infants and children, 334-335
 - in painful shoulder, 1369-1370
 - malignant nasal, in infants and children, 310, 312
 - metabolism of, PET studies of, 1065
 - SPECT studies of, 1073
 - of bone, in children, 455, 457
 - of brain, in infants, sonography of, 1105
 - nuclear medicine studies of, in children, 411-412
 - PET studies of, 1082-1083
 - prenatal diagnosis of, ultrasonography in, 291
 - of chest wall, MRI of, 583
 - of hands, ultrasonography of, 117, 119, 121-123
 - of neck, MRI of, 566-567
 - of orbit, MRI of, 538, 542
 - of soft tissues, of extremities, ultrasonography of, 140-143
 - prenatal diagnosis of, ultrasonography in, 293, 300
 - of spinal canal and cord, MRI of, 965-1008
 - extradural tumors, 992, 995-1005
 - metastases, 995-996, 998-1000, 1003
 - neuroblastomas, 1003, 1005
 - plasmacytomas and multiple myeloma, 1003
 - intradural extramedullary tumors, 978, 981-992
 - meningiomas, 989-991
 - metastases, 991-992
 - neurinomas-neurofibromas, 978, 981, 983, 989
 - neurofibrosarcomas, 989
 - intramedullary tumors, 966-978
 - astrocytomas, 971, 973-974, 976
 - ependymomas, 966, 970-971
 - hemangioblastomas, 976-977
 - metastases, 977-978
 - oligodendrogliomas, 976
 - technique for, 965-966
 - surgical neuroangiography of, 1137-1139
 - ultrasonography of, 5-6, 507-508
 - of tendons, ultrasonography of, 102
 - genital, 298
 - urinary tract, 296-298
 - amniotic fluid volume, 303
 - central nervous system, 288-292
 - head, 288-292
 - spine, 292
 - face, 292-293
 - medicolegal aspects of, 303-304
 - skeletal dysplasia, 301-303
 - soft tissues, 300-301
 - thorax, 293-294
 - vs. MRI, of musculoskeletal system, 669
 - Upper airway, and tracheal obstruction, in infants and children, 309-322
 - antrochoanal polyps, 310
 - choanal atresia, 309-310
 - croup, 315-316
 - double aortic arch, 319, 321
 - epiglottitis, 313, 315
 - hypertrophied tonsils, 312
 - infectious mononucleosis, 312
 - laryngomalacia, 313
 - malignant tumors, 310, 312
 - membranous croup, 316
 - nasal angiofibroma, 310
 - retropharyngeal abscess, 312
 - subglottic hemangioma, 316
 - tracheomalacia, 316, 318-319
 - vascular rings, 319, 321
 - compression of, by tumors or inflammatory masses, in infants and children, 336, 338
 - cardiovascular, in infants and children, 335-336
 - ultrafast CT of, in children, 282-283
 - Upper gastrointestinal series, in infants, 377, 380
 - Urinary tract, fetal anomalies of, prenatal diagnosis of, ultrasonography in, 296-298
 - infections of, in children, 393-407
 - causes of, 402, 406
 - CT of, 401
 - excretory urography in, 394
 - incidence of, 402
 - nuclear medicine studies of, 401
 - presentation of, 402
 - ultrasonography in, 394, 398, 401
 - voiding cystourethrography in, 393-394
 - Urography, excretory, in urinary tract infections, in children, 394
 - Urokinase, for thrombolysis, in children, 436-437
 - Uterus, carcinoma of, MRI of, 641-642, 644, 695
 - Valvular disease, MRI of, 595
 - Varix, pulmonary venous, in children, 375
 - Vascular disease, renal, MRI of, 626-627
 - Vascular malformations, embolization for, in children, 429-431
 - MRI of, 821-830, 833
 - arteriovenous, 821-822, 826
 - capillary telangiectasias, 828
 - cavernous hemangiomas, 826, 828
 - dural, 826
 - Gd-DTPA in, 880
 - occult cerebrovascular, 828-829
 - venous angiomas, 829-830
 - Vascular rings, in infants and children, 246, 249, 319, 321
 - Vascular shunts, embolization for, in children, 434-435
 - Veno-occlusive disease, pulmonary, in children, 369, 371
 - Venous anomalies, MRI and CT of, in children, 258-259
 - Venous disease, MRI of, 601-604
 - Ultrasonography, interventional, of musculoskeletal system. See *Musculoskeletal system*.
 - of cerebrovascular disease. See *Cerebrovascular disease*.
 - of feet, 84, 112, 114, 128
 - of hands. See *Hands*.
 - of knees. See *Knees*.
 - of painful shoulder, 1360
 - of pediatric hip disorders. See *Hips*.
 - of pseudotumors, in hemophilia, 1285
 - of rotator cuff tears, 1366
 - of soft tissue abnormalities, of extremities. See *Extremities*.
 - of spine. See *Spine*.
 - of tendons. See *Tendons*.
 - of urinary tract infections, in children, 394, 398, 401
 - of vomiting infant. See *Vomiting*.
 - prenatal, of fetal anomalies, 287-304
 - abdomen, 294-298
 - gastrointestinal tract, 294-296

- Venous obstruction, pulmonary, in children, 368-369
- Ventricular function, measurement of, in children, 255-256
- Ventricular septal defects, MRI of, 589
- Ventriculitis, in infants, sonography of, 1102-1103
- Vermis, hypoplasia of, MRI of, 768, 770
- Vertebrae, anatomy of, in MRI of cervical spine, 925
- Vertebral arteries, ultrasonography of, 1127-1128
- Vertigo, MRI of brain for, 487
- Vision, loss of, MRI of brain for, 493-494
- orbital disorders and, 535-545
- Vocal cords, MRI of, for normal and pathologic entities, 557, 560
- Vomiting, in infants, imaging of, 377-392
- contrasts in contrast medium, 377-378
- gastroesophageal reflux, 378-379
- significance of, 379-381
- ultrasonography in, 381-390
- extrapyloric, 381-383
- future of, 390
- pyloric, 383-385, 387-389
- sources of error in, 389
- von Hippel-Lindau disease, central nervous system manifestations of, MRI of, 788-791, 833
- White matter disease, MRI of, Gd-DTPA in, 886
- Wilms' tumor, MRI of, 626
- Wrists, rheumatoid arthritis of. See *Rheumatoid arthritis*.
- ultrasonography of, 109-110
- Wyburn-Mason syndrome, MRI of, 833
